**Dear colleagues!**

With respect and gratitude for your humanitarian initiative.

We confirm the need and we are asking for medicines, which people of your country are ready to send to us.

We organized the stuff in the regional military administration, where we collect medicines and medical devices and send them to the regions of Ukraine where there is an urgent need.

Antibiotics, painkillers, hemostatics, solutions for IV, dressings, emergency kits (NATO-style), surgical instruments, medical equipment and furniture are important.

With best regards,

**Head of the regional stuff**

**Oleg CHORNUY**
